

Advanced Cardiac Life Support (ACLS) Provider

The Advanced Cardiac Life Support (ACLS) Provider Course is designed for healthcare providers who either direct or participate in the resuscitation of a patient, whether in or out of a hospital. In this course you will enhance your skills in the treatment of arrest and peri-arrest patients through active participation in a series of simulated cardiopulmonary cases. These simulations are designed to reinforce important concepts, including:

- Identification and treatment of medical conditions that place the patient at risk for cardiac arrest
- The Basic Life Support (BLS) Primary Survey
- The ACLS Secondary Survey
- ACLS algorithms
- Effective resuscitation team dynamics

The goal of the ACLS Provider Course is to improve the quality of care provided to the adult victim of cardiac arrest or other cardiopulmonary emergencies. The ACLS Provider Course includes practice learning station and a Megacode testing station. The practice learning stations give you an opportunity to actively participate in a variety of learning activities, including:

- Simulated clinical scenarios
- Demonstrations by instructors or video
- Discussion and role playing
- Practice in effective resuscitation team behaviors

Proficiency cards are issued for a two-year period. Any fees collected for this course do not represent income for the American Heart Association.
