

Critical Incident Stress Management (CISM): Advanced Group Crisis Intervention

The Advanced Group Crisis Intervention training program is designed to provide participants with the latest information on critical incident stress management techniques and post-trauma syndromes. The program emphasizes a broadening of the knowledge base concerning critical incident stress interventions and Post Traumatic Stress Disorder. Specific strategies to intervene with those suffering the ill effects of exposure to trauma are reviewed and defusings and debriefings in complex situations are emphasized. Group Crisis Intervention is a prerequisite. This training meets the requirements of the International Critical Incident Stress Foundation.

Course topics include: core concepts and benefits of group support, principles of group process, enhanced group process, challenging group interventions, suicide of a colleague, line of duty death, CISM in disasters, and other challenging group interventions.
