

Developing Learners' Skill Performance

This workshop is designed to give the participant an experience using a solid framework for developing learners' skill performance. Built upon Dorothy Mackeracher's (2004) phases of physical learning coupled with Kolb's (1984) levels of skills acquisition, the process of developing skills is taught in the EMS context. Participants will learn by doing both as a facilitator and participant.

Dates	Days	Times	Registration encouraged by
